

2013 Annual Health Econometrics Workshop

OCT 3 - 5, 2013

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL

The purpose of this invitational workshop is to provide a forum to discuss the use of econometric and other quantitative methods to address issues in health economics and policy, health services research, and outcomes research.

We invite papers that develop new methods, assess existing methods, or highlight the use of non-proprietary software that address topical issues in health economics, health services and policy. Papers will be chosen for their originality, innovativeness, and rigor.

This year AHEW encourages submission of papers on the theme of

Estimating the effects of human capital and early childhood investments on health

Papers outside the theme will also be accepted.

An hour will be devoted to each paper selected for discussion (approx 9-10). A discussant will present the paper, followed by the author's rebuttal and open discussions.

Interested researchers should submit a full working paper by **June 1, 2013**, in PDF format. Online submissions can be made at

[www.healtheconometrics.org/
submission.php](http://www.healtheconometrics.org/submission.php)

Submitted papers should be unpublished and not accepted for publication at a peer reviewed journal. Those invited to participate in the workshop will be notified by July 1, 2013. Discussants for each paper will be selected with consent from the author.

Meals will be provided for all. Two nights at the conference hotel will be paid for all presenting authors and discussants. All other expenses, including transportation, are the participants' responsibility.
