

2020 Annual Health Econometrics Workshop

SEP 24-26, 2020

DEPARTMENT OF ECONOMICS
EMORY UNIVERSITY, ATLANTA GA

The purpose of this invitational workshop is to provide a forum to discuss the use of econometric and other quantitative methods to address issues in health economics and policy, health services research, and outcomes research.

We invite papers that develop new methods, assess existing methods, or highlight the use of non-proprietary software that address topical issues in health economics, health services and policy. Papers will be chosen for their originality, innovativeness, and rigor.

An hour will be devoted to each paper selected for discussion (approx 9-10). A discussant will present the paper, followed by the author's rebuttal and open discussions.

Interested researchers should submit a full working paper by **June 1, 2020** in PDF format by emailing to:

AHEW2020@gmail.com

Submitted papers should be unpublished and not accepted for publication at a peer reviewed journal. Those invited to participate in the workshop will be notified by July 1, 2020. A discussant for each paper will be selected after the author confirms participation.

We are in the process of renewing our AHRQ

grant. As of now, a registration fee will be charged for all participants, which will cover lodging and food during the workshop.

All other expenses, including transportation, are the participants' responsibility.
